

PUBLIC NOTICE
U.S. Air Force
Offutt Air Force Base (AFB),
Nebraska
Notice of Draft Permit
Modification

A Resource Conservation Recovery Act (RCRA) permit modification is being evaluated by EPA Region 7 for the following sites at Offutt AFB:

- Building 301 (OT018)
- Old Jet Engine Test Stand (SD041)
- Landfill 4 (LF012)
- Hardfill 2 Composite (SS040)

The purpose of the proposed modification is to revise the remedies in the current permit at OT018 requiring the Air Force to place deed notifications on off-site property that the Air Force or Department of Defense does not own. The Air Force is proposing an alternative process to visually inspect and conduct a records review to ensure no domestic drinking water wells have been installed in the previous year on affected off base properties, the results of which will be reported to affected off base landowners. If the proposed modification is approved by EPA Region 7, the permit would no longer require deed notifications for OT018, but would require letters of notification to affected off base landowners near OT018, SD041, LF012, and SS040. The permittee's compliance history during the life of the permit being modified is available from EPA. A copy of the existing RCRA Permit and proposed modification are available at the following location:

Bellevue Public Library
1003 Lincoln Road
Bellevue, NE 68005
Phone: 402-293-3157

Comments regarding the proposed permit modification are invited and may be submitted during the public comment period from March 7 to May 7, 2018. Comments should be provided in writing to:

Brad Roberts
U.S. EPA, AWMD/RCAP
11201 Renner Blvd
Lenexa, KS 66219
Email: roberts.bradley@epa.gov
Phone: (913) 551-7279

A public availability session will be held on March 14, 2018, from 1:00 to 3:00 PM at the Bellevue Public Library, 1003 Lincoln Road, Bellevue.
