Dear Ms. Lusey:

RE: Public Notice
Hazardous Waste Permit Modification
Offutt Air Force Base

Enclosed are copies of the statement of basis and the index to the administrative record for the referenced activity. Copies of the public notice announcement and the proposed permit modification were transmitted by separate letter. Please make all of these documents available for public review between July 17 and September 1, 1995.

Offutt Air Force Base has already established your library as a repository for many of the documents identified on the index to the administrative record. Personnel from Offutt have agreed to consolidate all these documents into one place and supply copies of any documents not already on file in the library. The complete list of documents will constitute the administrative record. These documents should be placed with the public notice, the permit modification, and the statement of basis for public review.

If you have any questions, please call me at (913) 551-7632.

Sincerely,
Elbridge W. Bartley III
